**An introduction to Out of School Care.**  
A place to play, connect and grow.

# Get a head start with sKids

Designed for primary school aged children, sKids provides a safe, fun and engaging space before and after school and throughout the holidays!

We understand how busy family life can be. Whether you're working, studying, or just need extra flexibility, sKids offers peace of mind for you and your family. Our Programme Managers are here to care for your child in a relaxed and safe social environment.

## Where play meets potential

We are passionate about play. We understand the important role it has in a child's positive learning and development. That's why all our programmes are designed around play, fun and friendship.

## Life skills

We give children the opportunity to learn about and practice important life skills like taking care of themselves and the environment around them, extending on what's taught in the classroom.

## Social development

Monash University<sup>1</sup> research found that our Adventure Programme scored highly on learning outcomes relating to identity, social connection and wellbeing. 90% of children reported that our programmes helped them look after themselves and their friends.

## How can we support your child's development?

### School readiness

Starting school can be daunting for kids. Our programmes help set children up for the best possible day at school and create an environment where friendships can thrive outside of the classroom.
